## Work Experience

### Four Star Inc

Kitchener, Ontario

SOFTWARE DEVELOPER

Mar. 2022 - Present

- Developed python scripts that automated repetitive excel based tasks such as sheet parsing, duplicate matching, formatting, and delivery route optimization.
- Built the front and backend for an internal web-based tool using React and Flask that allows stakeholders to utilize the python automation scripts.

### EnPowered Inc

Toronto, Ontario

DATA ANALYST / CODE BREAKER

May. 2022 - Aug. 2022

- Utilized Python and C++ scripts to brute force and simulate fixed utility costs and prorated bill configurations, saving decryption efforts significantly.
- Transcribed and summarized convoluted utility tariff and rate documents for New York in Notion.

### Grobo Inc

Waterloo, Ontario

SOFTWARE DEVELOPER / MECHANICAL DESIGN ENGINEER

Sep. 2021 - Dec. 2021

- Developed software solutions and scripts to procure and process data as well as increase operating efficiency in web traffic and supply chain.
- Designed two products incorporating plastic injection molding design, efficient manufacturing techniques, and integration of electromechanical components such as touch screen LCD's, mechanical pumps, and PCBs.

## Projects

### E-Commerce Website

FULLY FUNCTIONING E-COMMERCE WEBSITE WITH API-BASED BACKEND AND STRIPE PAYMENTS.

- Used Commerce.js for the backend, used API calls on the frontend to retrieve cart, checkout, order information.
- Utilized Material UI for the frontend as well as the Stripe API for the payments system.
- Skills: React.js, MUI, Commerce.js, Stripe.js, Web APIs, Firebase

### Hack the 6ix

Toronto, Ontario

HACKATHON BY HACK THE 6IX @ WEALTHSIMPLE HQ

Aug. 2022

- Built Warepair, a web app that allows contractors and clients to easily find each other.
- Designed the UI, built the frontend, and deployed both front and backend to heroku.
- Skills: React.js, Flask, PostgreSQL, Heroku

### Personal Website

A COMPILATION OF ALL WEB DEVELOPMENT, DESIGN, AND PROGRAMMING KNOWLEDGE.

- Built my personal website to use as my web resume and creative portfolio.
- The website was developed with React and modular and scalable in design using a variety of components and elements.
- Skills: React.js, Node.js, Express.js, Sass, Heroku, Firebase

## Education

### University of Waterloo

Waterloo, Ontario

HONOURS BACHELOR OF APPLIED SCIENCE - MECHANICAL ENGINEERING CO-OP

Sep. 2020 - Aug. 2025

- 3.7 GPA, President's Scholarship
- Mechanical Engineering 2025 Class Representative
- Member of University of Waterloo Outers Club
